

CEDARWOOD®
ALUMINUM SIDING

GENTEK®

Make us a part of your home.

A Premium Selection Faithful to the distinctive beauty of genuine cedar, Cedarwood presents a natural-looking wood finish in a strong and durable aluminum construction. Cedarwood's intertwining warm hues combined with a handsome wood-grain texture will lend the perfect measure of elegance to your home.

CEDARWOOD®

ALUMINUM SIDING

Understated Elegance

The rich earth tones and authentic texture of Cedarwood® aluminum siding will readily summon the warmth and simplicity of gracious living.

Cedarwood's convincing wood-like appearance is the result of our patented Color Fusion coating process. Intertwining natural hues in non-repeating patterns create the beautiful variegated tonal coloring of genuine cedar. As distinctive as each tree in the forest, this unique finish will singularly define your well-appointed home.

Beautifully Protective

Cedarwood's exquisite appearance is as strong as it is beautiful. Beginning with a heavy-duty aluminum core, each panel is "weather-sealed" in Fluropon®—a resilient Kynar 500® coating specially formulated to resist staining, mildew and dirt.

You can trust Cedarwood to stand up strong despite punishing weather. Frigid temperatures, searing sun, and blasting winds are no match for its commanding strength. Cedarwood also is warranted against excessive chalking or color change for 25 years—further assurance that your home will look great for years to come.*

Easy to Maintain

Cedarwood aluminum siding requires minimal maintenance. You can forget about scraping and painting or struggling with ladders. Just a simple rinse with a garden hose will remove most airborne dust and dirt. In most cases, your siding will clean up quickly and easily.

Timeless Style

Cedarwood's classically styled Double 5" Clapboard profile will heighten the character of your

home. Its earthy, multitone coloring and traditional design effortlessly convey warmth and charm.

Planning for the Future

Like many people, your home may be your most important investment. If you consider the time and money spent repainting year after year, you'll see why siding is a smart choice. Cedarwood's easy upkeep and attractive appearance can enhance the "curb appeal" of your home while improving its overall value. And in today's resale market, a low-maintenance exterior can be an important amenity.

Color Palette

Aspen Gray

*Chestnut
Brown*

Tawny Oak

Maple Tan

Complete your color scheme with coordinating soffit, fascia and trim accessories. Beautifully crafted exterior accents will give your home a distinctive touch of personality and visual appeal.
